

ABOUT ADVERTISING WITH PATHWAYS:

Pathways magazine is a publication of the International Chiropractic Pediatric Association (ICPA, Inc.), endorsed by the Holistic Pediatric Association (HPA) and Families for Conscious Living (FCL). All three organizations are non-profit organizations committed to offering the resources for parents to make informed health care choices for their families.

Pathways is a beautifully laid out, full-color magazine printed quarterly to reach parents throughout North America, Europe, Australia and New Zealand. Its informative articles are timely and thought provoking. Topics include Wellness Lifestyle, Nutrition, Mind Body, Holistic Care, Pregnancy/Birth and Breastfeeding.

Our readership includes many types of Holistic Practitioners, their clients and public subscribers. To date our paid subscription is up to 20,000 very committed readers in North America, Europe, Australia and New Zealand. In addition, we distribute another 10,000 issues to practitioners and public groups. These numbers continue to grow considerably, as feedback and demand for the magazine is outstanding. Our presence on newsstands such as Borders, Barnes & Noble, and Amazon.com are included in these sales.

We are extremely selective of our content, including advertising, and the products included in our magazine are endorsed by the ICPA, HPA, and FCL which adds credibility and encouragement for sales. Doctors of Chiropractic and other Holistic Providers are notorious for their ability to educate and encourage parents to utilize services and products that support their family's wellness lifestyle. Members of all three organizations are particularly enthusiastic about these endorsed products and services.

Additionally most of our subscribers are holistic practitioners and the ongoing exposure of *Pathways* in reception areas is profound. Our newest, far-reaching program, Pathways Connect, has brought this magazine to a new level of distribution and exposure. Read more about this outstanding community outreach program here:
